

SA763077

Georgian silver & tortoiseshell magnifying glass

Price

Sold**Item Reference: SA763077****Date of manufacture: Georgian**

Description

A lovely oval Georgian silver & tortoiseshell magnifying glass. Original glass, silver mounts to outside and around the glass. No damage to the tortoiseshell on the outside a very tiny nibble on the inside, probably from the making and lovely layering which can clearly be seen. The silver mounts are in really good order, no marks and the silver around the glass is in good order, just mishaps towards one end, I only add this for accuracy so as not to mislead, but really good condition. No chips to glass. Length 8 cm Width 6 cm PLEASE NOTE WE CAN ONLY SHIP THIS WITHIN THE UK
