ANTIQUE LONGCASE CLOCK

Price

Sold**Item Reference: SA76385****Date of manufacture: 1850**

Description

A Somerset mahogany longcase clock with marquetry inlays. Brass capped hood columns and a wavy hood door edging. Choice veneers to the case of light colour with marquetry banding. An attractive arched painted dial with floral corners and a scene to the arch. Date and seconds indicators. An 8-day duration mechanism striking the hours on a bell. The Tyte family of clockmakers worked in Wells from 1815-1896. They are well documented in A J Moores' 'Somerset Clockmakers' book with illustrations of clock dials. Height 7ft 4 "/ 224 cms
