Rare Novelty Mechanical Desk or Table Bell - Pig c.1890

Price

Sold

Item Reference: SA765369

Date of manufacture: 1890

Dimensions

Height = 8.3 cm (3.3")

Description

A rare find, this fabulous figural desk bell was cast in heavy Iron and finished with a bronze patina, in the form of a pig with a quality screwed construction. The mechanical bell can be would from the underside and then rung either by the snout or tail. I believe German in origin, and dating to the late nineteenth century, c.1890. The pig retains it's original two glass eyes. Excellent working condition, measuring 7" x 3 1/4" x 3 1/4" tall. Item: 42933 FREE Worldwide Registered Airmail Directly From the UK

Internal Ref: 42933
