Description

Vintage 1930s pocket watch. The watch has a seven jewel (two adjustments) Swiss stem-winding movement which is working nicely. The movement is signed Tacy Watch Co Admiral. Tacy was formed via a collaboration between the Tavannes Watch Company and Cyma. The watch measures 43mm diameter excluding the winding crown and the loop. The case is 14k gold filled and it is nicely decorated around the edges. The hinged case back has light marking, nothing too detrimental at all. The watch glass is in lovely condition. The dial is signed Sen O Rok, a company with branches in Switzerland and New York. We have examined the movement, dial and case and they all very much appear to be original to each other so it appears to be a Tacy sold under the Sen O Rok brand name. The watch comes in a new presentation box.
