Description

A very large and impressive William IV period solid mahogany chest of drawers. This is of extremely high quality & it dates from around the 1835-40 period. It was made by the London cabinet maker Richard Loader 23 Finsbury Pavement, London who was a cabinet maker, chair maker, papier mâché maker, and looking-glass manufacturer (1837-40) The original paper label which was stuck on the 2nd drawer down is still there but quite worn. The quality is amazing, and this is a great size, offering tons of storage space. The lower drawer is built into the plinth base, so is extremely deep. All the drawers are graduated in depth, with fine dovetails & original handles. This has a gorgeous colour and stunning patina. We have recently had this French polished & it is in excellent condition for its age. There is some minor wear and old marks that remain beneath the polish, commensurate for age. Width - 48 inches, 122 cm Depth - 21 inches, 54 cm Height - 53 inches, 134 cm
