ANTIQUE LONGCASE CLOCK

Price

Sold**Item Reference: SA76686****Date of manufacture: 1800**

Description

A Georgian mahogany longcase clock with a swan neck hood pediment. A well proportioned, slim case. Brass capped hood columns. Choice grain to the case with satinwood inlays. Shell inlays to the trunk door and base. A very attractive early example of a painted dial with floral corners, date and seconds dial. Lunar moon phases to the arch. An 8-day duration mechanism striking the hours on a bell. Thomas Wootton of Colchester is recorded in Loomes' 'Clockmakers and Watchmakers of The World' book as born in 1736 and working until 1797. Height 7ft 6 " / 229 cms
