Description

A good quality late Victorian silver mounted double end scent bottle c1880. The bottle is beautifully cut in oblong panels intersected by two V cut bands and three star cut bands. At one end is a chased decorative silver screw on lid with cork seal typically used for snuff or smelling salts. At the other end is a chased decorative silver hinged lid and glass stopper for scent or cologne. The screw on lid is engraved with the message A Present from RW to JM in the tiniest italic writing. As usual with these Victorian double scents, the lids are not hallmarked though made with sterling silver. Beautiful!
