Description

A Fireside Companion set fashioned from late 19th decommissioned "Gras" model 'M1874' bayonets. Set comprises of shovel, poker and tongs. Probably converted in similar workshops as those who made them originally, each one with original etched detail of the original makers. Mounted on a similarly fashioned bespoke stand, a little later perhaps in the 1920's. Wear as to be expected from original use. A few knocks and dents to base, but again consistent with age and do not really distract from the item. Measurements are as displayed on stand.
