Dimensions

Height = 77 cm (30.3")

Width = 153 cm (60.2")

Depth = 90 cm (35.4")

Description

Edwardian mahogany large pedestal desk This Edwardian mahogany large pedestal desk was made Circa 1900 in one of the best workshops of the period. I would attribute it to Maple & Co. It has good deep fielded panels all around the sides, back, and even on the inner panels of the pedestals. The desk is of large proportions and so makes a wonderful workstation where you have a good area to not only place your computer but also it allows for plenty of workspace. The desk is made in 3 parts which makes it easy for transportation in and around your home or office. It is fitted 3 drawers along the top and 3 graduated drawers in each pedestal, all fitted with the original brass swan neck swing handles and back plates. The top has a green inset gilt tooled leather writing surface. Imagine the pleasure the ownership of this desk will bring you, and the chore of working can only be enhanced as you sit behind this attractive desk. 153cms wide 60ins 90cms deep 35 1/2ins 77cms high 30 1/2ins All Measurements are approximate, whilst we take care in measuring there may at times be a very slight difference. Delivery We can arrange free delivery to UK mainland; we also have a reliable an...
