Description

Antique silver 1920s Moeris pocket watch. The watch has a good quality Moeris stem-winding movement which is working well. The movement is protected by an inner hinged cover. Moeris was a well respected manufacturer, one of the companies used to supply the British military with watches. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and has Birmingham hallmarks for 1922 with the makers mark for the Dennison Watch Case Company. The case has some light surface scratching and a couple of small "dings" to the back but overall it is in nice condition for a 1920s piece. The case back has monogrammed initials and the inner cover has a personal inscription dated 1924. The glass lens is in nice condition. The enamel dial is in nice condition and has traces of the original retailers name. The watch has blued steel hands. The watch will be sent in a new presentation box.
