

SA771255

1920s full hunter pocket watch

Price

Sold**Item Reference: SA771255****Date of manufacture: 1920**

Description

1920s full hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is all protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by Manufacture Genevoise de Boites de Montres (MGBM). The case has engine turned detail to both the front and the back, and a vacant cartouche to the front. There is some rubbing around the edges. Other than that, the front is in good condition while there is some unevenness to the back. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The white dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There are several short hairline cracks although they are very faint. The watch comes in a new presentation box.
