Description

1920s Swiss full hunter pocket watch. The watch has good quality Swiss stem-winding movement, 15 jewels, two adjustments, which is working nicely. The movement is protected by an inner hinged cover which has some unevenness. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case Company, a Birmingham based case manufacturer and supplier to many watch makers. There is some fairly gentle unevenness to the front and back. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in lovely condition. The dial is in good condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
