It comes from two tropical trees of the family Rutaceae (rue family). East Indian or Ceylon satinwood is the yellowish or dark-brown heartwood of *Chloroxylon swietenia*. The lustrous, fine-grained, usually figured wood is used for furniture, cabinetwork, veneers, and backs of brushes. West Indian satinwood, sometimes called yellow wood, is considered superior. It is the golden yellow, lustrous, even-grained wood found in the Florida Keys and the West Indies. It has long been valued for furniture. Internal Ref: A1548c
