Antique Waltham full hunter pocket watch, 1908

Price

Sold**Item Reference: SA773073****Date of manufacture: 1900**

Description

Antique Waltham full hunter pocket watch, 1908. The watch has a stem-winding movement, grade 418, which is working nicely. This grade of movement was in production from 1903 until 1917, the serial number 17,546,504 tells us that this one was manufactured in 1908. The movement is protected by an inner cover which has a slight indentation and a little scratching where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and was made by the Philadelphia Watch Case Company. It is in lovely condition, just a slight indentation to the front cover. Engine turned detail to both front and back, which is still nice and crisp. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in lovely condition. The signed dial has a hairline running from the sub seconds dial towards number 8 and 9. Lovely ornate hands and outer minute markers. The watch comes in a new presentation box.
