Description

This pair of steel chandeliers is suspended from chains gathered together with a clasp of three hooks. They are painted black, and have six bulbs with candle style holders. These are mounted on torch style ends. The central construction is a metal repeat c-scroll circular design. This pair of chandeliers are well made and very sturdy -they are very heavy so will need robust fixings. They have been rewired because of the age the wires had deteriorated and gone brittle. They have a medieval look to them. They weigh 14 kg each. They come with a 2 m chain. C1920-C1940 st 2074
