Description

Gents 1950s Eldor Geneve triple date wrist watch. The watch has a Swiss 15-jewel hand-winding movement, signed Eldor Geneve, which is working nicely. The name Eldor Geneve was a brand name used by E Bill who founded Eldor in 1920, and registered the name Eldor Geneve in 1949. The watch is a good wearable size at 35mm diameter excluding the winding crown and the lugs. The case is rose gold plated. There is some marking to the side of the watch, and wear to the bezel, next to the winding crown. The case back is stainless steel. The lens is in lovely condition. The signed dial is in lovely original condition with original hour and minute hands, and red date pointer. This is a triple date watch. The month is set by turning the crown at number 10. To set the date, pull the same crown out and turn it to move the date wheel round. A later leather strap has been fitted. The watch comes in a new presentation box.
