Date of manufacture: 1930

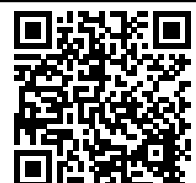

Description

1938 silver Revue pocket watch. The watch has a good quality Swiss Revue stem-winding movement, calibre 30, which is working well. The movement is signed with the retailers name Mahlen. The watch measures 50.5mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1938 with a case maker's mark for Aaron Dennison of the Dennison Watch Case Company, a prolific maker of cases for various watch manufacturers. The case has some wear to the engine turned detail on the back but overall it is in nice condition for a 1930s piece. The glass lens has some light rubbing from use but overall it is in nice condition. The dial has a faint hairline crack at 4 o'clock and a small nibble under the dial but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
