Silver 1926 Waltham full hunter pocket watch

Price

Sold**Item Reference: SA776162****Date of manufacture: 1920**

Description

Silver 1926 Waltham full hunter pocket watch. The watch has a stem-winding movement, grade 610, which is working nicely. The movement has nicely patterned plates which are fully signed and the serial number, 25,585,552, dates it back to 1926. The movement is protected by an inner hinged cover which has some unevenness. Close examination tells us that the movement and case are not original to each other. The movement may have been replaced as a more economical option than a repair at the time. The watch measures 50mm diameter excluding the winding stem and the loop. The case is sterling silver. Originally there would have been engine turned detail but the majority of this has worn off over the years. There is some gentle unevenness to the front and back of the case. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in lovely condition. The signed dial is in lovely condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
