Description

Antique Omega pocket watch, 1924. The watch has a stem-winding movement, Omega 40.6L which was in production between 1923 and 1936. The movement is working nicely. It is signed with the Omega name and it also has the serial number 6,098,979 which dates it back to around 1924. The movement is protected by an inner hinged cover which has some marking and fairly gentle unevenness. The watch measures 48mm diameter excluding the winding stem and the loop. The nickel case is signed inside the hinged case back with the early Omega logo. The case back has some unevenness. The acrylic lens is in good condition. The signed dial has three faint hairline cracks radiating from the centre of the dial. The watch comes in a new presentation box.
