Description

1921 Elgin full hunter pocket watch. The watch has a stem-winding movement, grade 290, which is working nicely. This is a seven jewel movement with nicely patterned plates, fully signed and carrying the serial number 23,575,551 which dates it back to 1921. This grade of movement was in production from 1904 up until 1933. The movement is protected by an inner hinged cover which has a little scratching from where it has been opened in the past. The watch 50mm measures diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition with crisp engine turned detail to both the front and back. The front has a central cartouche with initials. The winding crown pushes in to open the front cover. Inside, the lens is in lovely condition. The signed dial is in beautiful condition with original blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes in a new presentation box.
