Sold**Item Reference: SA781572****Date of manufacture: 1960**

Dimensions

Height = 30 cm (11.8")

Width = 25 cm (9.8")

Depth = 5 cm (2.0")

Description

A striking pair of black opal earrings. Each earring is topped by transitional cut diamond in a four claw collet, linked to a small oval shaped black opal, to a rubover set old mine cut diamond, to a larger black opal. Although both of the larger opal have matching black background colour and incredible plays of colour, the pattern on each slightly varies; one presents broader, ribbon-style flashes colour; the other more of a "pin-fire" effect. A wonderful and dramatic pair of earrings. Accompanied by an independent jewellery report by IGR (#30309515). Cut - Oval cabochon opal. The top diamonds are transitional cuts, the middle diamonds are old mine cuts. Colour - The diamonds are G to J. Clarity - The top diamonds are I1. The middle diamonds are SI1. Carat - The top diamonds are approximately 0.37 carat each, with a total approximate diamond weight of 0.91 carat. Each of the larger opal is approximately 0.60 carat, with a total approximate opal weight of 1.50 carat. Circa - 1960. Measurements - The earrings are 34.5mm carat long. Metal - 18k white gold. Tested.
