Antique silver Waltham pocket watch, 1912

Price

Sold**Item Reference: SA783290****Date of manufacture: 1910**

Description

Antique silver Waltham pocket watch, 1912. The watch has a stem-winding movement, Equity grade, which is working nicely. The movement is fully signed and the serial number, 17,877,546, dates it back to around 1909. The movement is protected by an inner cover which has a little unevenness. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1912, with a case maker's mark for Aaron Dennison. The Dennison Watch Case Company made the majority of cases for Waltham UK for movements that had been imported from the US. The case has the odd mark and a little unevenness to the hinged case back but overall is very acceptable for such an early piece. The watch glass is in good condition. The single sunk dial is in lovely condition with original blued steel hands and an outer minute track. The watch comes in a new presentation box.
