## Antique Swiss silver pocket watch

Price

**Sold****Item Reference: SA783534****Date of manufacture: 1900**

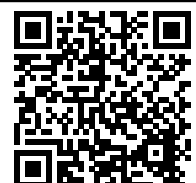

## Description

Antique Swiss silver pocket watch. The watch has a 10 jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has details of the movement engraved upon it, namely Ancre (lever movement), 10 rubis. The watch measures 47mm diameter excluding the winding stem and the loop. The outer case is 800 silver and there are Swiss hallmarks inside the case back. Originally there would have been a rose gold wash around the bezel and edge of the case back but, as we often see with this style of case, most of the gold wash has rubbed off over the years. The dial has a hairline crack although it is quite faint. Lovely original ornate hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
