Description

Lovely early to mid Victorian wooden garden wheelbarrow in original as found condition. The shape is great and the original iron bound wooden spoke wheel is super. The wheelbarrow moves freely with no significant play in the wheel. Nearly all the woodwork has been effected by old worm but it is all perfectly solid and has been treated twice with woodworm killer as a precaution. There are no repairs although the small top front section could do with replacing. The wheelbarrow has its original green finish. Would look super as a garden feature with flowers inside or you could even still use it as a wheelbarrow. SIZE; 70" long overall. 30" wide. 24" high CIRCA; 1850 - 1870
