

SA786679

Antique Omega gun metal pocket watch

Price

Sold**Item Reference: SA786679****Date of manufacture: 1910**

Description

Antique Omega gun metal pocket watch. The watch has a stem-winding movement, identified as an Omega, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gun metal and it is in good condition. The inside of the hinged case back has the early Omega logo. Gun metal, which is an alloy of copper, tin and zinc, was originally used in gun manufacture but was later replaced by steel. The watch glass is in good condition. The dial has a few faint hairline cracks. The watch will come in a new presentation box.
