Depth = 53.1 cm (20.9")

Description

This beautiful 18th century country made chest is made from solid oak and has developed a very lovely rich and natural colour. . The handles to the drawers, hinges to the lid and the locking hasp are all original - on most chests of this age the metal fittings have long since broken and been replaced. The inner lock is missing but a wooden bracket has been added many years ago and the hasp slots into this firmly. . The lid is original and unusual - a single plank of cleated oak which is heavy, level and flat and opens and closes smoothly. . The whole chest is pegged jointed with original timbers throughout including the drawer linings and bottom boards. . Dated 1753 and with carved initials F. B . A very handsome, heavy and large chest in good condition with no significant damage or marks. There is a small loss to the top edge of one drawer and there has been some woodworm activity many years ago in the bottom boards and stile feet but not a huge amount and this is long since dead and not significant. . . Dimensions are: . 55 inches wide, 21.25 inches deep and 29.5 inches high. . For metric please multiply by 2.5
