Antique silver Record pocket watch, 1935

Price

Sold**Item Reference: SA789154****Date of manufacture: 1930**

Description

Antique silver Record pocket watch, 1935. The watch has a good quality 15 jewel (two adjustments) stem-winding movement which is working nice-ly. The movement is fully signed and it is all protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two hinged case backs for Birmingham 1935, together with the mark to commemorate the Silver Jubilee of King George V. A past owner has scratched their initials inside the case back. The inner case back also has the maker's mark is ALD for Aaron Dennison. The Dennison Watch Case Company was a Birmingham based factory who supplied various watch makers with cases. The case is in good with just light surface marks. The watch glass is in lovely condition. The dial looks good to the naked eye. If the bezel is opened, there are two chips to the very edge and a short very faint hairline coming from one of them. When the bezel is closed, the chips are not visible. Blue steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
