

SA789196

Antique silver Zenith pocket watch

Price

Sold**Item Reference: SA789196****Date of manufacture: 1910**

Description

Antique silver Zenith pocket watch. The watch has a stem-winding movement which is working nicely. The movement is good quality and has a micro regulator. It is signed with the Zenith name and the serial number, 1,852,444, dates it back to 1915. The movement is protected by an inner hinged cover which is signed Zenith, and it also has details of medals won at the Paris exhibition in 1900. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are Continental silver marks inside both of the case backs. The inside of the back cover also has the Zenith logo. Overall, the case is in very nice condition with just a couple of small knocks to the side, nothing too serious at all. The glass lens is in good condition, just a small chip to the bevelled edge, barely noticeable to the naked eye. The signed dial has damage between 10 and 11, and a couple of radiating hairline cracks. There is also a chip underneath number 5 but most of it is hidden by the bezel. The watch comes in a new presentation box.
