Ladies Omega full hunter fob watch & chain

Price

Sold**Item Reference: SA790184****Date of manufacture: 1890**

Description

Ladies Omega full hunter fob watch & chain. The watch has a stem-winding movement, identified as Omega, which is working nicely. The movement has nicely patterned plates, as we would usually expect to see on an American movement, and it carries the serial number 1,916,250 which dates it back to the very early 1900s. The movement is protected by an inner hinged cover which has a scratch from being opened in the past. The watch measures 41mm diameter excluding the winding stem and the loop. The case is 14k gold filled and is stamped Banner. The case is beautifully detailed and in super condition. Various pointers on the watch, such as the lack of the word 'Swiss' on the movement, together with the patterned plates and the elaborately decorated case, confirms that the watch was probably made for the Canadian market. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial is in lovely condition too with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a rolled gold double albert with each chain measuring 18cm long including the T-bar and the clasp. ...
