

SA790829

Waltham Traveler full hunter pocket watch, 1902

Price

Sold**Item Reference: SA790829****Date of manufacture: 1900**

Description

Waltham Traveler full hunter pocket watch, 1902. The watch has a stem-winding seven jewel movement which is working nicely. The movement is fully signed and the serial number 11,858,098 dates it back to 1902. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and was made by the English watch case maker Aaron Dennison, the company supplied most of the cases for Waltham UK. The case has some light rubbing to the front but overall the condition is good for such an early piece. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The dial looks very good to the naked eye. If viewed through a magnifying loupe then there are a couple of short faint hairlines towards the edge of the dial. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
