1922 Elgin full hunter pocket watch

Price

Sold**Item Reference: SA790946****Date of manufacture: 1920**

Description

1922 Elgin full hunter pocket watch. The watch has a seven jewel gilt stem-winding movement which is working nicely. The movement is fully signed and the serial number, 24,735,459, dates it back to 1922. The movement is protected by an inner hinged cover which has a few scratches and some marking where it has been opened in the past. The watch measures 51mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Keystone Watch Case Company. The outside of the case is in good condition, just a slight indentation to the back cover but nothing serious. The inside of the case back has a few scratches. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in lovely condition. The signed dial is in very nice condition. If viewed through a magnifying loupe, there are a couple of short hairlines underneath the subsidiary seconds dial but they are difficult to see with the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
