Description

A 1920s silver Selezi pocket watch. The watch has a Revue stem-winding movement which would have been bought in by Dimier Frères & Cie, to be subsequently sold under the brand name Selezi, registered by Dimier Frères in 1912. The movement is working nicely. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the screw-on case back for Birmingham 1923. The case was made by the Dennison Watch Case Company, a prolific supplier of cases to many watch companies. The back of the watch has the initials ECC together with the date 25 April 1924. The case has the odd mark but overall is in good condition for a 1920s piece. The glass lens is in good condition. The dial is in good condition. A good sized subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
