1930s Cortebert pocket watch and chain

Price

Sold**Item Reference: SA792418****Date of manufacture: 1930**

Description

1930s Cortebert pocket watch and chain. The watch has a good quality Swiss 15-jewel stem-winding movement which is working nicely. The watch measures 49mm diameter excluding the winding stem and the loop. The case is nickel and overall the condition is good with just a slight indentation to the back and general light surface marks. The watch glass has a small 2mm chip to the bevelled edge and a couple of small marks but overall very acceptable. The signed dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes with a double albert with each chain measuring 22cm long. There are various accoutrements which comprise an 1843 four pence coin, sometimes known as a groat, a 1889 six pence, and a Lords Prayer coin. The watch and chain will come in a new presentation box.
