Item Reference: SA793499

Date of manufacture: 1900

Description

1902 Elgin full hunter pocket watch. The watch has a seven jewel gilt stem-winding movement which is working well. The movement is fully signed and the serial number, 9538903, which dates it back to 1902. The movement is protected by an inner hinged cover which has a few scratches and some marking where it has been opened in the past. The watch measures 50.3mm diameter excluding the winding stem and the loop. The case is gold plated and is the Cyclone model made by the Keystone Watch Case Company. The case has light surface marking from use and a small "ding" to the back cover but overall it is in nice condition for a 1900s piece. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in nice condition. The signed dial has a very faint hairline crack between the sub seconds dial and 7 o'clock but otherwise it is in nice condition. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
