Description

We are delighted to be able to offer this wonderful blue enamel guilloche silver cigarette case made by Robert Chandler in Birmingham, 1916. The case is presented with a two-point chain and ring that allows the case to be suspended from the likes of a Chatelaine. The front lid of the case features a beautiful 'herring-bone' guilloche enamel motif that allows for the light to glisten and beautifully reflect upon differing angles. The reverse side of the case presents a plain, mirror-like finish with a slightly concave design. Internally, the case features a silver-gilt gold tone that wonderfully contrasts the exterior silver and blue colour, whilst allowing for cigarettes/content to be placed within without tarnishing the silver. The case is hallmarked on the interior of the lid with clear full English marks. SIZE Size (mm) L:75mm (150mm inc chain) W:47mm Size (inches) L:2.95 (5.90 inc chain) W:1.85 Weight: 82 grams (2.89 oz) CONDITION Good Condition - The case is in good antique condition with no major damage (no chips or cracks in the enamel) or issues. For accuracy: there are some minor dings to the plain reverse side of the case as shown in the la...
