Description

Waltham full hunter pocket watch, 1924. The watch has a seven jewel stem-winding movement, 610 grade, which is working nicely. The movement, with nicely patterned plates, has the serial number 24,728,221 which dates it back to 1924. The movement is protected by an inner hinged cover which has a little scratching. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case Company. Dennisons made most of the cases for Waltham UK. The front of the case is in good condition. The back has a few little "dings" towards the edge. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition. The signed dial has a short faint hairline beneath the subsidiary seconds dial but otherwise is in good condition with original blued steel hands and an outer minute track. The watch comes in a new presentation box.
