Description

Outstanding Omega solid 18ct gold gents wristwatch. This is a very fine example of a gents classic wristwatch made by the world renowned premier swiss maker Omega. The watch is the rare and highly desirable Constellation 'C' Chronometer fully automatic calibre 751 24 jewel movement which has just been overhauled and serviced and is running at plus 3 seconds per day, as you can see it is in fabulous condition. The original diamond bright cut dial is also of solid 18ct gold with the OM designation which means it will never deteriorate or tarnish and is in incredible condition and it has the day and date facility. This is an exceptional and rare variant with the facet cut fluted bezel, whenever you see these the facets have usually been badly rubbed. They also get machined flat to look like the more normal flat bezel variant. Its almost unheard of to find this feature in perfect condition like this. The case body graining is near perfect with super sharp edges indicating that this watch has spent most of its life tucked away in a drawer. The day and date wheels are exactly the same colour and tone indicating that neither one has ever been replaced. The winding c...
