

SA797121

Large silver shagreen handle magnifying glass

Price

Sold**Item Reference: SA797121****Date of manufacture: 1910**

Description

This is a super size quite a bit larger than most. There is a date of 1916 engraved on the front together with an applied Christmas Tree. London hallmarked date letter for 1911 makers mark Samuel Jacob. There is also a retailers mark scratched into the silver J H Werner. J H Werner were based in Friedrichstrasse. They made silver items, but obviously retailed items from other makers. They were one of the court jewellers. The glass is slightly scratched commensurate with age and there is a very tiny bit of shagreen missing at the end of the handle, but it is a truly wonderful item. L 27 cm 10.5 cm Diameter of glass.
