Antique Alliance Lever pocket watch and chain

Price

Sold**Item Reference: SA797271****Date of manufacture: 1910**

Description

Antique Alliance Lever pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has two little "dings". The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition, as is the acrylic lens. The signed dial has several hairline cracks radiating from the centre although they are faint. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 28cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
