Antique silver Waltham pocket watch and chain

Price

Sold**Item Reference: SA797298****Date of manufacture: 1920**

Description

Antique silver Waltham pocket watch and chain. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement is fully signed and the serial number 23,853,966 dates it back to 1920. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks for Birmingham 1924, with a case maker's mark for Aaron Dennison of the Dennison Watch Case Company, suppliers of cases for most of Waltham UK's watches. The case is in good condition with just minor marks, nothing serious at all. The watch glass is in good condition, and has a nice deep bevelled edge. The signed dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a silver double albert, 26cm long from the T-bar to each of the clasps. Each of the links has the lion passant silver mark, and the clasps are hallmarked too. Total weight of the chain is 33g. The watch and chain come in a new presentation box.
