Depth = 11.5 cm (4.5")

Description

For your consideration is this beautiful Art Deco scent atomizer, dating to the 1930's and originating from Czech Republic. On first viewing it's hard not to notice the size which is much larger than regular atomisers of this period and the condition which aside a little foxing on the chrome is without damage and importantly the enamel decoration is free from scratches or noteworthy wear. There is residue perfume in the glass funnel which sits inside the bottle. Mild surface marks to the base. The black puffer and tassel are in excellent working condition and free from any aging, this may be a newly added addition as it looks unused. This atomizer definitely won't disappoint and is worthy of any vanity or perfume bottle collection. FREE UK delivery
