Description

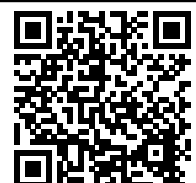

A most unusual copper jardiniere with a wonderful verdigris patination. The baluster bowl has lion mask and ring handles, is decorated with urns, swags and a scroll and leaf border. The bowl is supported by a baluster pedestal and stands on a domed base with a border to match the top. The condition is very good, this antique planter has a weighted base to ensure it stands evenly and securely. This is a fabulous jardiniere that would be equally stunning whether placed in a conservatory or garden. c. 1880 Diameter of bowl: 15.5" 34.5 cm Depth of bowl: 12.5" 32 cm Overall height: 26.5" 67.5 cm
