Description

Antique Equity Watch Co pocket watch. The watch has a seven jewel stem-winding movement which is working nicely. The movement is signed Equity Watch Company, Boston, a branch of Waltham. The watch measures 49mm diameter excluding the winding stem and the loop. The case is nickel. The front is in good condition, the back has a gentle unevenness and light surface marking, nothing too serious at all. The watch glass is in good condition. The signed dial is in good condition, just a couple of short faint hairlines towards the edge by number 12 but not overly noticeable to the naked eye. Blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single watch chain, 28cm long. The clasp is a little out of shape but works perfectly well. The watch and chain come in a new presentation box.
