ANTIQUE LONGCASE CLOCK

Price

Sold**Item Reference: SA80274****Date of manufacture: 1750**

Description

A slim, well proportioned Georgian longcase clock. A swan-neck pediment surmounted by 3 brass finials. Fine fretwork to the hood with gilded capitals to the hood columns. An oak case with walnut crossbanding. Fluted trunk side columns and a raised plinth to the base with canted corners. Ogee bracket feet. A fine brass and silvered dial with central engraving. Signed 'Sam Harley, Salop' to the chapter ring. Date and seconds indicators. An 8-day duration mechanism striking the hours on a bell. Samuel Harley of Shrewsbury is recorded in Elliotts' 'Shropshire Clock and Watchmakers' book as working 1766-1799. He worked on the local Church clock and was also Major of Shrewsbury in 1784. Height 7ft 4 " / 223 cms
