Description

Gents unusual 1960s Rotary wrist watch. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is gold plated, there is some rubbing but not too detrimental as you have to look quite closely to see it. The case back is stainless steel. The case is very unusual with the wide bezel with number markers. The lens is in lovely condition. The signed dial is in its original finish with original hands and cross hair detail. A new leather strap has been fitted. The watch comes in a new presentation box.
