Gents large Seiko wrist watch,
1965

Price

Sold

Item Reference: SA804113

Date of manufacture: 1960

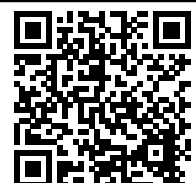

Description

Gents large Seiko wrist watch, 1965. The watch has a fully automatic 17-jewel movement, calibre 7625A, which is working nicely. You can sometimes hear the rotor moving around. The watch is a good wearable size at 37mm diameter excluding the lugs. The main body of the case is gold plated while the case back is stainless steel. The case is in good condition, just a little rubbing to the lugs, and some surface marking to the stainless steel case back. The lens is in lovely condition. The signed dial is in its original finish with original hands, seconds sweep and an early form of quickset date where the hands are repeatedly moved backwards and forwards between 1am and 10pm until the desired date is reached. There is a little marking to the dial but nothing too serious at all. A new leather strap has been fitted. The watch comes in a new presentation box.
