Description

Gents Smiths De Luxe wrist watch, c1960. The watch has a 15-jewel stem-winding movement, made in England, which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the case back is stainless steel. The case is in good condition, just light surface marking, nothing too serious at all. The retaining ring on the case back has some pitting and marking. The lens is in lovely condition. The dial is in super condition too, with original hands, subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
