

SA805779

1930s Cyma stem winding
pocket watch.

Price

Sold

Item Reference: SA805779

Date of manufacture: 1930

Description

1930s Cyma stem winding pocket watch. The watch has a good quality nicely jewelled Cyma stem-winding movement which is working well. The movement is protected by an inner hinged cover. The watch measures 50.8mm diameter excluding the winding stem and the loop. The case is the gold plated and is the Star model from the Dennison Watch Case Company. Dennisons was an English manufacturer, based in Birmingham, who supplied various watch makers with cases. The case has light surface marking from use and a small "ding" to the back cover but overall it is in nice condition for a 1930s piece. The glass lens is in nice condition. The signed white enamel dial has an old repair to the outer edge between 8 & 9 o'clock but otherwise it is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
