Antique Valmor pocket watch and chain

Price

Sold**Item Reference: SA805821****Date of manufacture: 1910**

Description

Antique Valmor pocket watch and chain. The watch has a seven jewel stem-winding movement which is working nicely. The movement is signed with the name Valmor, a brand name registered by the London importer Fulda & Davis in 1911. The movement is protected by an inner hinged cover which has scratching where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just some surface marking, nothing too detrimental. The watch glass has a couple of small chips to the edge but they are underneath the lens. The dial has a few hairline cracks, mainly radiating from the centre. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 28cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
