Description

A good example of a pair of antique Sterling Silver candlesticks. They are stylish and good quality pieces with scrolling floral detail around the bases and tops and a weighted base lined with green baize. They are both hallmarked for Birmingham and the maker William Hutton & Sons Ltd. The date mark has worn but the style of the maker's mark helps to narrow the date down to between 1896 - 1908. They are in good condition for their age. There are some light surface marks, knocks and signs of age and use and a few very fine splits around the base of one (see photos) but overall they display well. They have been gently cleaned and polished and are ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
